

Training Title: Art in 3-D: Sculpture in Afterschool

Training Blurb: In this 2-hour workshop participants will get their hands busy with easy, accessible and inexpensive materials such as modeling compounds, construction and found materials that they can use in their programs right away. Not an artist? No problem! This workshop will take you through the process from cultivating a safe studio setting, through the planning, material acquisition, set-up, facilitation and clean-up of authentic three-dimensional art making experiences. A partnership with VSA Vermont.

Goals:

1. Articulate the potential value of open-ended, intentional, inclusive, process-based arts experiences in the afterschool setting.
2. Create a plan for an inclusive, open-ended three-dimensional artmaking experiences by addressing potential challenges and solutions.
